Niels Peek is Professor of Health Informatics at the University of Manchester, and director of the Greater Manchester Connected Health City, which is part of the £20M "Health North" investment to establish a learning health system in the North of England. His research focuses on data-driven methods for health research, clinical decision making, and healthcare quality improvement. He also leads the Safety Informatics theme in the NIHR Greater Manchester Patient Safety Translational Research Centre and the Informatics and Data Science cross-cutting theme in the NIHR Manchester Biomedical Research Centre.
